**Poznáte nejakú fungujúcu slovenskú Firmu2.0?**  
Čo myslím pod pojmom Firma2.0? Po angličtine je "Enterprise2.0" tá firma, ktorá používa na komunikáciu a kolaboráciu web2.0 aplikácie ako: blogy, interaktívne fóra, sociálne siete, wikipeédia zprávy, RSS feedy a pod. Buď interne alebo aj voči okolitému svetu – klientom, dodávateľom atď.  
Predstavte si firmu **Enterprise2.0** na celosvetovej úrovni, aby som im pomohla pri výkume **Enterprise2.0**, ktorý robí v rámci celej EÚ a dodala informácie o firmách využívajúcich web2.0 technológiu na Slovensku. Viete o takýchto **podnikateľských článkoch**?

**Networking2.0 alebo networking trochu inak.**  
Pred necelými dvoma týždňami som sa zúčastnila na **Networking 2.0** konferencii v bratislavskej Incheba, kde som prezentovala dŕžku z mojich darov Slovensku. Počas prvého dňa som mala prezentáciu na tému **Networking2.0** a druhý deň som bola diskutujúcou v panelovej diskusii s dvoma zaujímavými dámadmi – z Andrejou Plančoniou - špeciálnou na šibidlo zbrala a Jarmou Šinkovom, ktorá sa venuje coachingu.

No one in Slovakia  
believed in my  
dream, but these 3  
gentlemen from  
USA did believe...

I quit my job, in order to dedicate my full time to a  
dream: “I wanted to awaken talented Slovak people.”

Do I know  
what makes  
me ALIVE?

Am I  
indispensable?

What activities am I

seems to pass faster?

What is

A woman with dark hair, wearing a white sleeveless top, is sitting on the ground in a vast, green field. She is looking up at a bright blue sky where the word "CHANGE" is written in large, white, fluffy clouds. The horizon is flat and extends across the middle of the image.
